

Umar Hadi Mukti

Fullstack Developer

✉ umarhadimukti@gmail.com ☎ 089673356109 📍 Tangerang, Banten in [linkedin.com/in/umar-hadi-mukti/5a5564216](https://www.linkedin.com/in/umar-hadi-mukti/5a5564216)

I am an enthusiastic Fullstack Developer with a strong passion for application development and design. My expertise is particularly focused on backend development. I enjoy the challenge of solving problems and delivering efficient, high-quality solutions. With a comprehensive skill set that spans both front-end and back-end technologies, I am committed to building seamless and user-friendly applications. In my spare time, I continuously seek to expand my knowledge and stay updated with the latest industry trends and technologies. Seeking to leverage my skills in Backend position.

EXPERIENCE

Fullstack Developer - Directorate General of Higher Education, Ministry of Education, Culture, Research, and Technology Feb 2024 - Present

- Collaborated with cross-functional teams to deliver projects on time and within budget.
- Participated in code reviews, and contributing to continuous improvement initiatives.
- Developed interactive and user-friendly user interfaces for new features using AlpineJS and Livewire.
- Adept at delivering robust and scalable solutions to enhance educational administrative systems.
- Optimize database queries and performance to handle large amounts of data.

EDUCATION

Mercubuana University Aug 2021 - Present

Informatics Engineering - GPA 3.61

SMK PGRI 1 Kota Tangerang Jul 2018 - Jul 2021

Computer & Network Engineer

SKILLS

Laravel, Livewire, ExpressJS, NodeJS, ReactJS, TailwindCSS, AlpineJS, PostgreSQL, MongoDB, Docker, Postman, etc.

PROJECTS

Backoffice Kedaireka

- Developed responsive front-end interfaces using Livewire and AlpineJS, enhancing user experience and accessibility.
- Managed back-end services and database schemas using Laravel and PostgreSQL.
- Implemented new features, worked on improving the way developers ship the code.

NauMovie: Streaming Movie App

- Implement secure authentication and authorization mechanism to protect user data and transactions.
- Managed back-end services and database schemas using Laravel and PostgreSQL.
- Designed and developed RESTful APIs using Laravel to handle user authentication, movie management, and payment processing.

Attendify: Face Attendance App

- Developed an attendance application using face recognition technology.
- Built applications using the Laravel and React JS stack to enhance interactivity and accelerate development.

Restful API Task Manager

- Developed a robust and scalable RESTful API for a Task Management system designed to facilitate efficient task organization, tracking, and management.
- Architected and implemented RESTful endpoints using Node.js and Express, ensuring adherence to best practices for API design.
- Utilized MongoDB for data storage, implementing Mongoose for efficient database interactions and schema design.

CERTIFICATION

Cloud Practitioner Essentials (Belajar Dasar AWS Cloud) Jun 2024

Dicoding Indonesia

Database Programming SQL Nov 2022

Oracle Academy

Database Design Oct 202
